ROMANTIC CHINESE NUPTIALS IN CALIFORNIA. Married, on Monday morning, Mr. Charles Po to Miss Chu Lin, both of the Chinese Empire. to Miss Chu Lin, both of the Chinese Empire.

The above union was consummated at the time above stated, under difficulties. Chu Lin, one of the "high contracting parties," was claimed as property by one Fong Ah Pan, and valued at \$250 in cash. Charles Po, the other "party of the first part," became enamored of the fair Celestial, who reciprocated, and the two resolved to be made one. With the assistance of some Mellicans an attempt was made to effect an alcomment. was made to effect an elopement on Sunday evening last. Negotiations between the friends of the rival houses of Po and Pan were friends of the rival houses of Po and Pan were interrupted by a row between the principals. Several shots were exchanged, and Po took water, Pan following him up with "hot yarbe." Fortunately no one was injured, though one shot whistled in close proximity to the head of a Mellican Mandarin, "Ah Tomm," who was waiting with a carriage to convey the "lov-yers" to a Magistrate. On the following morning Fong Ah Pan was examined in Justice Court and discharged, it appearing that he had acted in self-defense. Charles Po, who it appears was the aggressor, was then examined, but during the interval he had married the only winess sgainst him, who (like a true and faithful wife) refused to testify against her "liege lord." Mr. Po, by this adroit management, has saved himself a term of confinement, and shown a knowledge of law remarkable for a Chinaman.—Mariposa Star.

GREAT SWIMMING FRAT-LEANDER BRATEN BY A SAVAGE. - The Pacific Commercial Advertiser, of a late date, published at Honolulu, Sandwich Islands, says: The schooner Marguret, from Kauia, picked up on Friday, at a distance of some six or eight miles from Barber's Point, a native boy by the name of Kameosone, a deserter from the whale-ship Franklin, which left this port the preceding day. The boy, about eight o'clock on Thursday evening, jumped overbeard, and struck out for the land—then about twenty miles distant. He swam all night, and at daylight was within half a mile of the shore. Here, however, he was opposed by a strong current; however, he was opposed by a strong current; and, after buffeting the waves for a while in e vain endeavor to reach the beach, he dis-covered a sail in the distance, several miles to the lesward. He accordingly changed his course for the vessel, and, at nine c'clock on Friday morning, was standing upon her deck, apparently but little the worse for his fourteen

THE EVEROT OF MANLY SPORTS.—The marvellous and still juvenile vitality of Lord Palmerston has long been matter of surprise. But it was his pride and pleasure as a youth to be the best rower, jumper and runner; to be first in the sports of the field, as he has since been first in the senste; and to this day his horse and gun are invariably resorted to in his hours of relaxation. As for Lord Brougham, legends of his enormous powers of labor and triumphs over the frail physique of humanity have gathered round him like a Hercules; and with reference to him and others of his class, Mr. John Higdon, a soldier in the Mexican war, and a well-known citizen of Alexandria, Va., died in that city on Sunday. with reference to him and others of his class, the observation of a public writer is, doubtless, in a great measure true, that "the greatness of great men is quite as much a bodily affair as a

SAD AND SINFUL HISTORY OF THE FRENCH QUEENS.—The Dublin University Magazine, in commenting upon the lives of the royal and imperial wives of France, states that there are but thirteen cut of sixty-seven on whose memory there is no dark stain of sorrow or sin. A GREAT IRISH Foc.—Dublin and its vicinity were enveloped on Tuesday evening, 10th, in one of the densest fogs ever remembered. The traffic of the city was greatly impeded, and the lamps afforded little or no light to guide the pedestrians. Crossing the street was a perilous task, and many persons experienced difficulty in finding their way from place to place. On Wednesday morning the fog was even worse. A light, except intensely brilliant, could not be distinguished a few yards dastant, and the usual street traffic a few yards dastent, and the usual street traffic almost ceased.

FRESH AND SALT WATER.—John Edge has calculated that a ship of 120 guns, length 206 feet, breadth 54 feet 5 inches, and depth 23 feet, of 2,502 tuns burden, will be 5% inches deeper in river water than in sea water, being the difference of the specific gravity of fresh and salt water. This difference is equal to 143 tuns, 4 owt., and it takes 24 tuns to immerse the ship I inch deeper. Draft of water, when loaded, is 24 feet 7 inches for-ward, and 20 feet aft.

AN ENTIRE PARTY POISONED BY EGG-NOGG. An ESTIRE PARTY POISONED BY EGG-NOGG. A case of poisoning occurred at the residence of Mrs. Ray, near Tuscalcosa, Ala., a few evenings since, involving some eighteen or twenty persons, who had congregated to partake of egg-nogg. The barrel from which the liquor was drawn was carefully examined, but no poison of any kind could be found. The parties "imbibing" narrowly escaped with their lives, one of whem is scarcely considered out of danger.

DETERIORATION OF THE CITY OF MEXICO.-has lost its pristine beauty, and to-day it feels the evils of civil war more than any other city in the country. The streets are dirty, its buildings dilapidated; the people unsettled, and martial law, approximating to mob law, rules supreme.

SKATING BY LANFLIGHT.—The gentlemen connected with the New York Central Railroad have arranged several locomotives at Syracuse in such a position that their head-lights illuminate the canal basin, near the machine shops, and numbers of ladies and gentlemen enjoy an evening's skating frolic on the ice.

HEAVY ROBBERY AT THE OPERA .- A Russian nobleman in Paris, who wore a fur cloak lin-ing valued at twenty thousand silver rubles, (about \$15,000,) had the costly article stolen from him one night at the opera so defily that all the ingenuity of the Parisian Police was insufficient to detect the purioiner.

EXTRAORDINARY FRMALE PHILOSOPHERS. "Well, Jane, this is a queer world," said Joes to his wife; "a sect of women philosophers has just sprung up." "Indeed," said Jane, "and what do they hold?" "The strangest thing in nature," said he, "their tongues."

SAGACITY OF ANIMALS—A NOBLE GREYHOUND. The following incident, said to be well attested, and taken from a French work entitled L'Histoire des Chiens Celebres," shows that a well-educated dog, under exciting circumstances, can not only reason and act with wonderful decision and presence of mind, but can also manifest a feeling of revenge, which is not necessarily his natural character, but which can hardly be surpassed is intensity by a Christian warrior. "Mustaphe," a strong and active greyhound, belonged to a captain of artillery, raised from its birth in the midst of camps, always accompanied its master, and exhibited no alarm in the midst of battle. In the hottest engagements it remained near the cannon, and carried the match in its mouth. At the SAGACITY OF ANIMALS—A NOBLE GREYHOUND. and carried the match in its mouth. At the memorable battle of Fontenoy, the master of Mustapha received a mortal wound. At the moment when about to fire upon the enemy, he and several of his corps were struck to the earth by a discharge of artillery. Seeing his master extended lifeless and bleeding, the dog

became desperate, and howled pitcously.

Just at that time a body of French soldiers were advancing to gain possession of the piece which was simed at them from the top of a small rising ground. As if with a view to revenge his master's death, Mustapha seized the lighted match with his pares and set fire to the cannon, loaded with case-shot! Seventy men fell on the spot, and the remainder took to flight. After this bold siroke, the dog lay down sadly, near the dead body of his master, licked his wounds, and remained there twenty-two hours without sustenance. He was at length with difficulty removed by the comrades of the deceased. This gallant greyhound was earried to London and presented to George II, who had him taken care of as a brave and faithful public servant. small rising ground. As if with a view to re-

A VERY FORMIDABLE IRISH "GROST,"—A "ghost" has been in the habit of haunting the neighborhood of Panmure, near Dundee, in various disguisce. He carries fire-arms, and on being accosted presents a pistol to the per-son addressing him. One morning, at dawn, he was perambulating about in white, and on one occasion he was pursued by two men, but vanished out of their sight. The Dundes Courier says he walks on springs, which ena-ble him to bound like one of the feline species. He is a tall, strong man, able to stand all weathers, and to defend himself. It is said that on one occasion he was seized by five men, who surrounded him and succeeded in holding him fast. Under his white overall they found a breastplate, pistol and dagger.
He promised, if lat go, not to annoy the neighborhood again, and they allowed him to escape.
Many are so much afraid of meeting him that will not venture out at dark, and the factory hands go to work in the morning tremb-ling like timid hares pursued by hounds.

A New Bank in Bosron —A new bank, called the Pawner's Bank, has just gone into operation in Boston. The Traveller says: It is on the same plan as the famous "Monte do Piete," or Banks of Charity, in Paris, and like that can be made of incalculable advantage to the poor, and to all who may have occasion to borrow money on goods and chattels. In Paris only about one-twentieth of the goods pawned at these institutions are abandoned, the balance being redeemed by their owners, and it is believed that there would be a like result here if they could be pawned on as rea-

A HORSE IN A STRANGE PREDICAMENT .- A horse recently got loose in his stable in Providence, R. I., raised a scuttle in the floor, and actually got down into the barn cellar, a dis-tance of six feet, through a hole sixteen by twenty-three inches, although an ordinary-sized horse, weighing between nine and ten hundred pounds. He was found in the morn-ing standing in the cellar, looking very much surprised, says our informant, and not a little ashamed. It was found necessary to tear away the cellar wall in order to get him out.

CRLESTIAL PHENOMENON .- Some nights since an extraordinary and beautiful appearance of the heavens was distinctly visible throughout the Red River settlement, for several hours. A broad scarlet band extended across the horison from east to west, and as the night was clear and the moon shone brightly, the phe-nomenon was very striking. Of such a deep, rich scarlet was this luminous band, that the snow on the earth looked like blood, from the

A FAMOUS PATRICIAN HUNTER .- The most astonishing Western hunter was Lord Gobe who remained nearly three years on the plains and upon the plateau of the table lands beand upon the placeau of the table lands between the Sierra Madre and Sierra Nevada. His retinue consisted of thirty mer, sixty horses, large baggage and provision trains, tuns of ammunition, and \$10,000 worth of improved fire-arms.

A Cargo of Variaties.—A ship has sailed from San Francisco for the city of New York with a cargo consisting of hides, horns, old copper, old iron, grizzly bears, old junk, California lious, bales of rage, a sprinkling of cougars, leopards, old rope, and old Adams himself, the famous grizzly bear tamer. Adams is bringing his California mensgerie to the Atlantic States for exhibition.

A DESIRBLE COSMETIC.—A certain fashiona-ble countees has long used a recipe or wash, of her own making, by which she retained her complexion until long after the allotted three score years and tes. A firm in Regent-street, London, has given the extraordinary sum of £3,000 for the recipe, and the celebrated "bloom" is to be forthwith at the service of the less aristogratio portion of society the less aristocratic portion of society.

VALUATION OF MAINE.—The report of the valuation committee for 1869, foots up \$162,-472,914, against \$98,242,254 in 1850. The number of polls is set down at 139,031, against 105,441 in 1850. If the increase in polls is a fair indication of the increase in population, the census will show an aggregate of over 700,000 souls in Maine.

THE RESULT OF LAND SPECULATIONS .- A bill The Kasult of Lian Speculations.—A bill has been introduced into the State Senate of Minnesota to provide for throwing town sites, and their additions, back into farm lands. The Minnesotian calls this "a bill for the encouragement of agriculture." It is emphatically a good measure, and would suit other latitudes besides that of Minnesota.

Taus Sisters.-Two sisters died in Port-The Sistems.—Two sisters died in Fort-land, Me., last week, at a very advanced age. The elder was ninety-seven years of age, and the younger ninety-siz. They were the last of their family, had always lived together, and died, one on Thursday and the other on Friday, within one day of each other.

THE ONE-HANDED TENOR .- M. Roger, who since his accident has been provided with an artificial hand, is engaged for two months at the Italian Opera, his first opera there being Lucia, in which M'lle Battu, the new debutants, is to be the prima donna. It is reported that he will also appear as "Don Glovanni."
